PROJECTS

Computer Graphics Mini-Project | The Crow Story

- The objective of this project was to visually depict the Thirsty Crow story using OpenGL. All characters and elements in the story were created and animated using various OpenGL primitives.

Mobile Application Development Mini-Project | Medicine Database

- The aim of this project was to develop a comprehensive application that streamlined medication management and promoted patient well-being using Android Studio.

Database Management Mini-Project | Car Showroom Management

- The aim of this project was to develop a comprehensive system that streamlined car showroom management and enabled an efficient online platform for buying and selling cars.

Image Watermarking

- This project focused on developing an application that conceals one image within another using Python for the backend and HTML, CSS, and JavaScript for the frontend.

EDUCATION

Srinivas Institute of Technology | 2020–2024

Bachelor of Engineering in Computer Science

St Aloysius Pre-University College | 2018–2020

12th Grade | PCMB

Sacred Hearts High School | 2015–2028

10th Grade

SKILLS

Full-Stack Development · .NET · AngularJS

Skilled in developing scalable full-stack solutions using .NET for backend logic and AngularJS for dynamic user interfaces.

CERTIFICATES

Basics of Python

Infosys Springboard

AWS Academy Graduate

- Cloud Architecting
- Cloud Architecting from Data to Insights with Google Cloud Microsoft Azure Data
- Fundamentals DP-900

INTERNSHIP

Inventron Technology

Full Stack Web Development

AICTE (Eduskills)

AWS Cloud Virtual Internship
